Meteorwave® ELL

Materials for 224Gb/s and Beyond

- Class-leading SI performance
- For 224Gb/s and higher
- Non-quartz and quartz solutions
- Halogen-free options
- Developed with exclusive AGC technology

Automotive PCB Materials

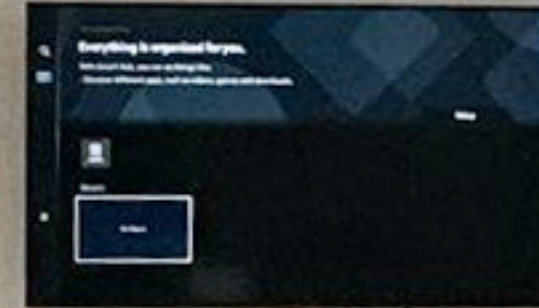

- In Production on Major Automotive Programs
- High Frequency, Reliability and Extremely Low Loss
- Short-Range (24 GHz) & Long-Range Radar (77 GHz)

AGC

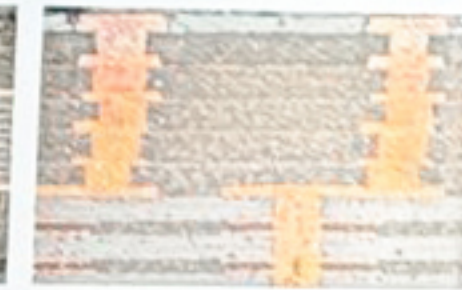

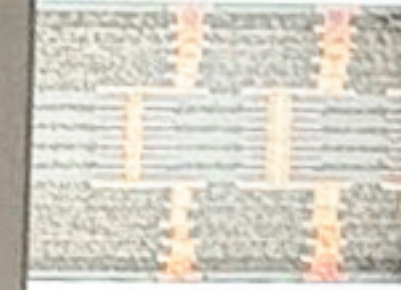

Your Dream, Our Challenge

Comprehensive range of substrate materials for the electronics industry

fastRise

Lowest Loss Non-Reinforced Prepreg

- High-Reliability Stacked Microvias
- Large Process Window
- High Flow and Fill
- Consistent Laser Via Formation
- Reliable Small Diameter
- Redistribution Layer (RDL)
- Build-Up Chip Carrier

www.agc.com

AGC

Your Dream, Our Challenge

No Flow Prepregs

- Minimal and Consistent Flow
- Lead-Free Assembly Compatible
- For Flex Rigid and RF/Digital Hybrid PCB Applications including:
 - Bonding Adhesiveless and Multilayer
 - Rigid-flex and Attaching Heat Sinks

SOTI CONNECT

The SOTI booth features a large blue and white backdrop with the SOTI logo and several product names. Two large monitors on stands display the SOTI XSIGHT interface, which shows a 'No Signal' message. A central monitor displays a dashboard with various icons. To the right, a smaller monitor shows a detailed dashboard with charts and data. The booth is set on a blue carpeted floor.
